 Portfolio

Summary

Recent graduate specializing in frontend development with a focus on React. Eager to join a dynamic team to build intuitive, engaging web interfaces using React, HTML, CSS, and JavaScript. Passionate about learning, collaboration, and contributing to modern, high-quality web applications while staying updated with industry best practices.

Featured Projects

● OREBI (E-Commerce website)

React js Tailwind Css Redux Toolkit

Developed a responsive e-commerce site using React, Tailwind, and Redux Toolkit. Integrated product search, API fetching, and Add-to-Cart features with dynamic state management. Focused on smooth UI/UX and real-time product updates.

● ToDo (CURD App)

React js Tailwind Css Firebase

Created a responsive task manager using React and Firebase Realtime Database. Implemented features to add, edit, and mark tasks as done with instant data sync and smooth UI interaction.

● WeatherMe (Weather Forecast App)

React js Tailwind Css WeatherOne API

Built a sleek weather dashboard using React. Integrated the WeatherOne API for real-time data, enabling users to search by city and instantly view current weather conditions. Managed API calls, parsed responses (temp, humidity, wind, etc.), and structured UI for quick, clear forecast display.
